

Why is it that every time something good comes down the road that is a a great product, government tries to stifle it. Leave XM Radio alone it's a great product and service.

I want everyone at FCC know that I benefit from listening to XM Satellite Radio and its traffic and weather channels. This satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.

John Mays
